

## **Mid-weight Filmmaker - Camera Op with Editing Experience**

We are looking for a filmmaker to join our team in a permanent position.

We are a fast growing creative content company who make film and animation for the web and TV across many sectors, including - corporate, retail, fashion, private and advertising. We make all formats of videos from live action to animated graphics.

We are looking for someone who is passionate about filmmaking with strong camera skills, and has a track record of published work with a strong show-reel.

The role will develop and grow according to the business needs, and initially we're looking for someone who can film creative content - such as you see on our website: [www.itchmedia.com](http://www.itchmedia.com)

We have a work hard, relaxed culture at Itch and we're looking for someone who will fit in with the team, generate ideas and approach filmmaking with a creative outlook!

Skills needed:

- Multiple camera knowledge and operation - C300mk2 and Sony Fs7
- Lights and Lighting set ups
- MOV1 or equivalent
- Adaptable work flow - production and post production
- Strong Adobe CC skills - Premier Pro, After Effects, Photoshop and Illustrator
- Sound recording and processing
- Interview skills (ability to interview contributors).

Salary dependent on ability and experience. This is not a junior role - please provide examples of your work.

If this sounds like you, then get in contact today.
